## COMPUTER ASSISTED ATTENDANCE

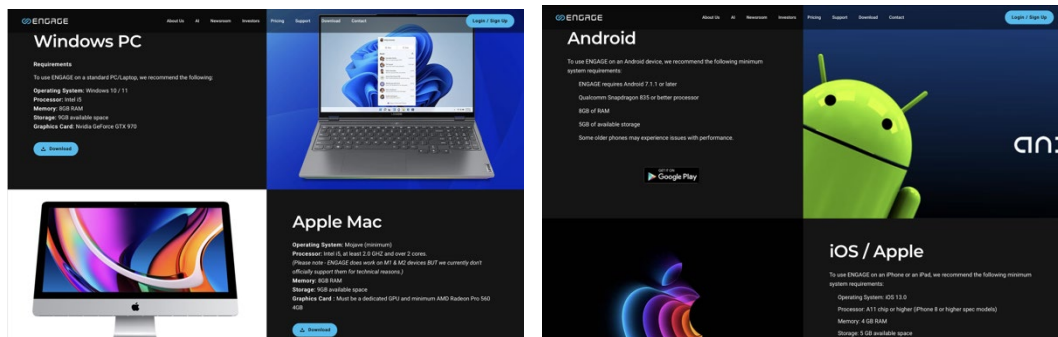

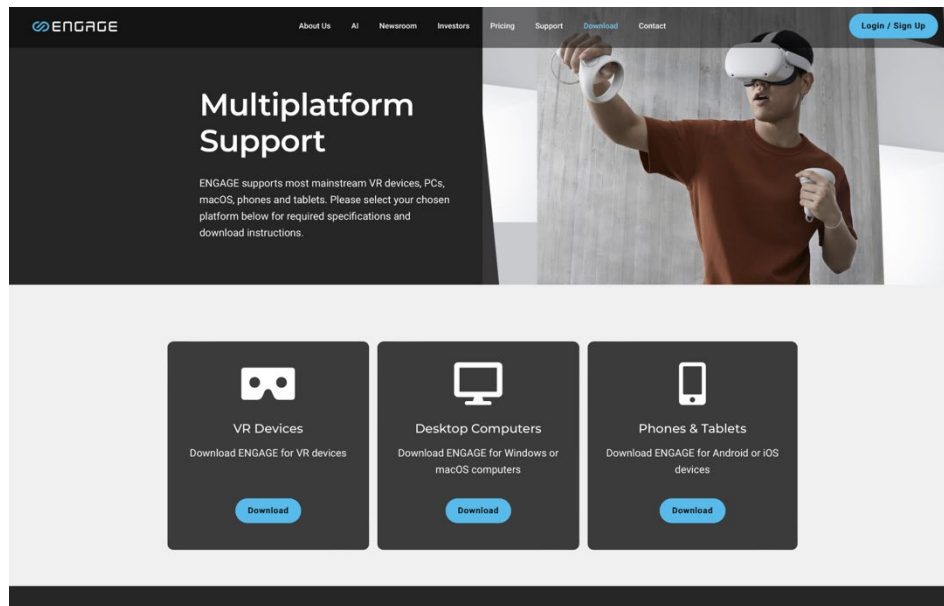

## COMPUTER ASSISTED ATTENDANCE

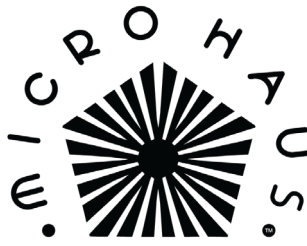

If you have a desktop computer or mobile device, you can join the **MICRO HAUS Metaverse** by completing the following steps:

### 1. Download ENGAGE Software

Download the **ENGAGE software** on your computer or tablet:

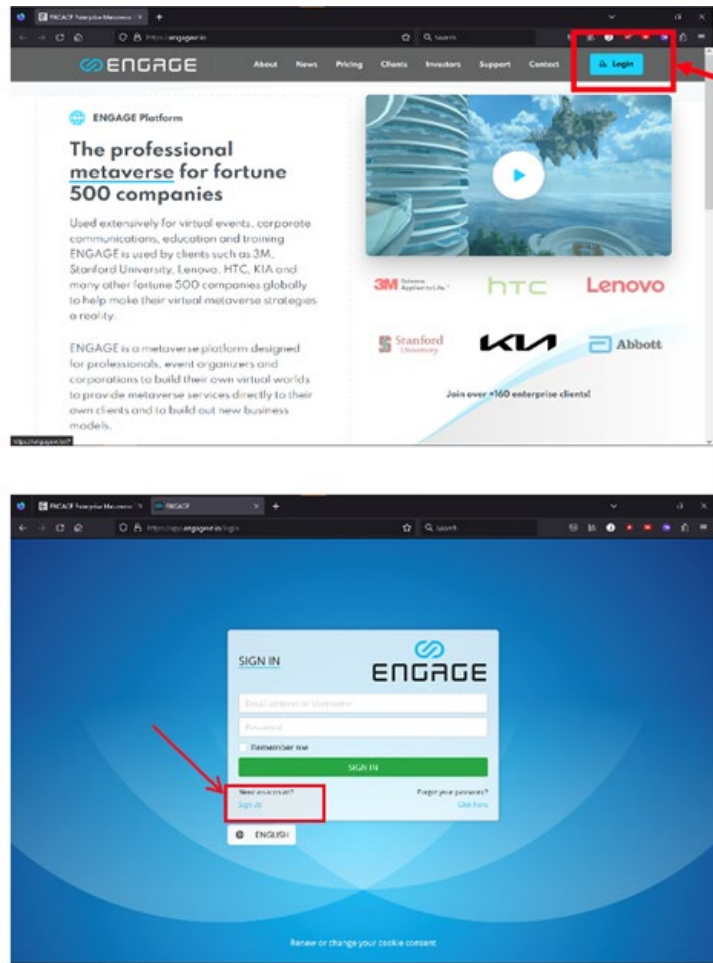

<https://engagevr.io/download-engage/>

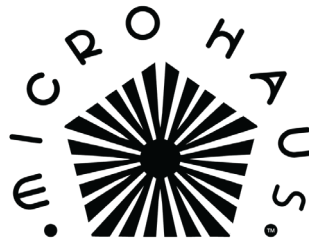

## 2. Create your ENGAGE Account

After signing up, be sure to **confirm the email address** as you will not be able to log in without confirming. You will get an email for verification at the email address used to create the account.

## 3. Create your own Avatar

- To create your Avatar, follow these instructions: <https://youtu.be/AbwbVtHs0fA>
- For a more personalized look, have a photograph of your face available to upload.

The screenshot shows a user interface for creating a 3D avatar. On the left, there are three sections: "Sex" with male and female icons, "Complexion" with a grid of color swatches, and "Outfit Style" with icons for different clothing items. Below these are buttons for "Generate Avatar", "Customize", "Save & Continue", and "Cancel". On the right, a 3D female avatar is shown in a red jacket and dark pants, standing on a circular base. A large white play button is overlaid on the avatar. At the bottom of the interface, there are zoom and reset icons.

## Create your avatar

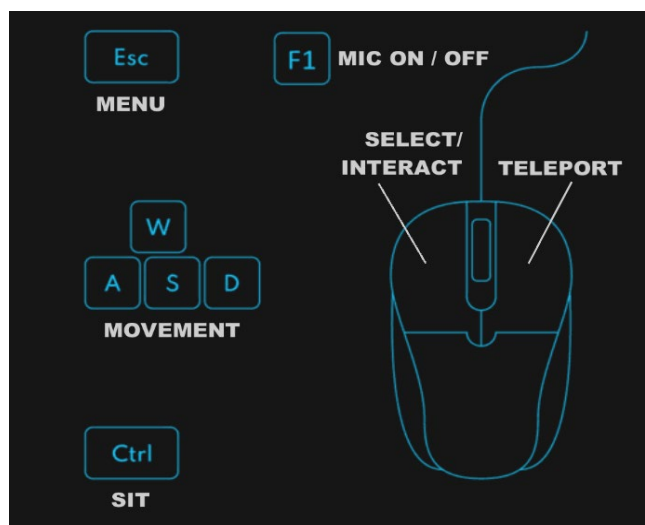

In this tutorial, we'll show you how to create the 3D character that represents you in ENGAGE.

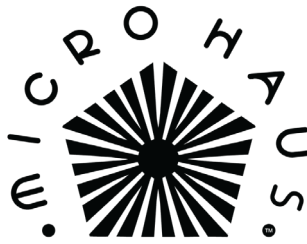

#### 4. Familiarize yourself with the Desktop Controls

Give yourself enough time, prior to the event, to familiarize with the use of the controls.

For mouse and keyboard controls on desktop devices:

<https://docs.engagevr.io/engage/readme-2/basic-controls>

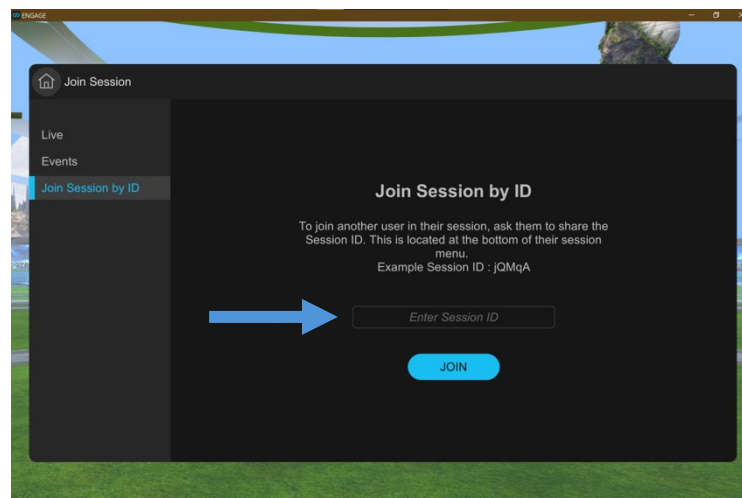

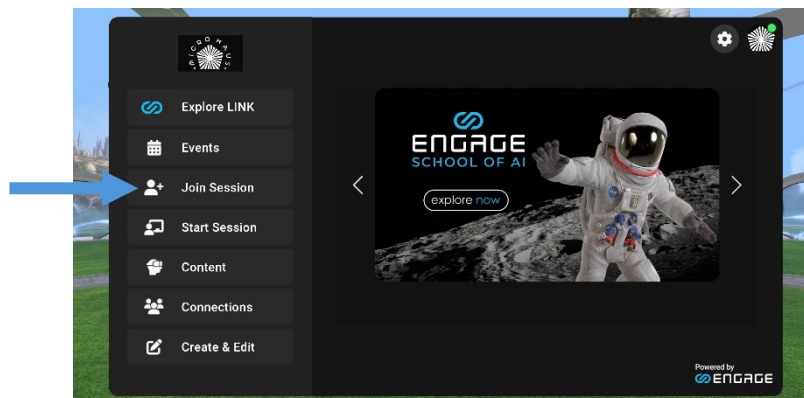

## 5. Access Additional Resources

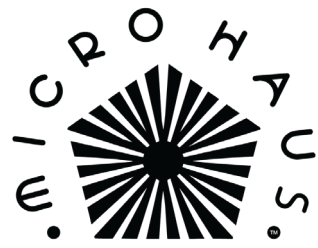

You can learn more on how to use Engage at <https://docs.engagevr.io/engage>

## 6. Join the ENGAGE Session

When it's time for the event, open ENGAGE **and join the correct session** by:

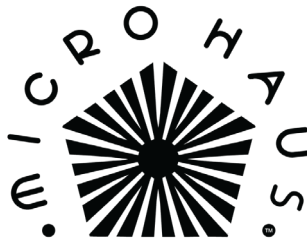

- Selecting “**Join Session**” on left
- Selecting the “**Join by session ID**” tab
- Entering the following session ID (case sensitive): XXXXXX

## VR ASSISTED ATTENDANCE

## VR ASSISTED ATTENDANCE

If you have a virtual reality (VR) device, you can join the **Micro Haus Metaverse** by completing the following steps:

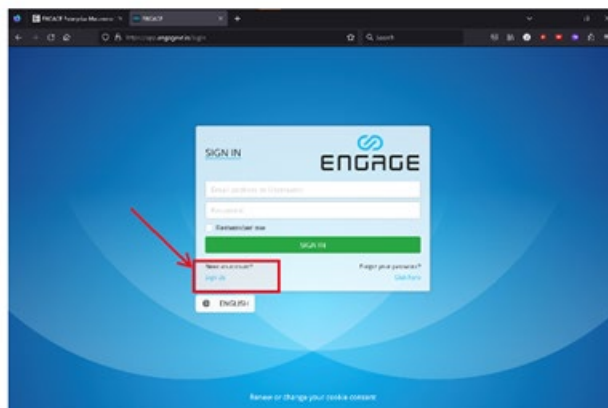

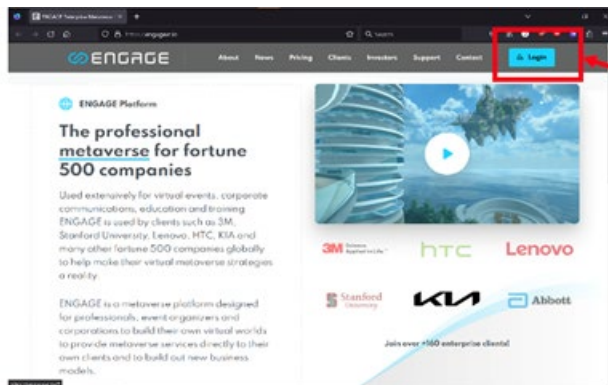

### 1. Download the Meta Quest Application

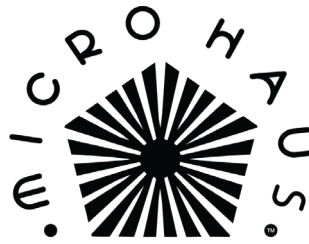

Download the **Meta Quest application** on your cell phone and make an account.

- a. [Apple](#)
- b. [Android](#)

### 2. Create your ENGAGE Account

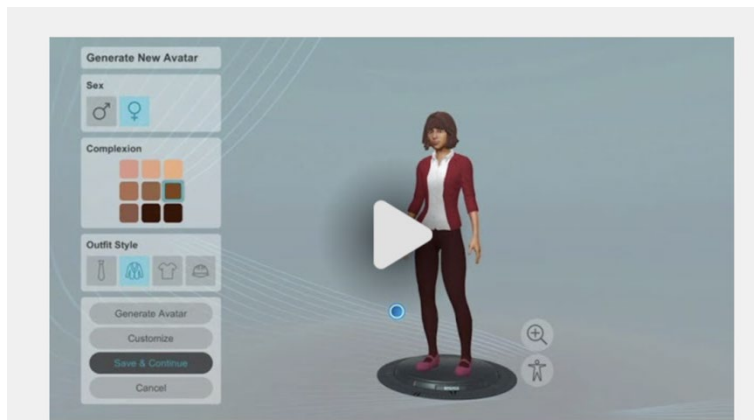

Create your account by going to <https://engagevr.io/>. After signing up, be sure to **confirm the email address** as you will not be able to log in without confirming.

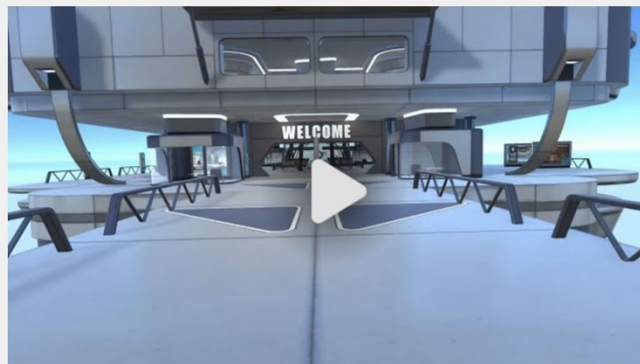

### 3. Create your own Avatar

- To create your Avatar, follow these instructions: <https://youtu.be/AbwbVtHs0fA>
- For a more personalized look, have a photograph of your face available to upload.

### Create your avatar

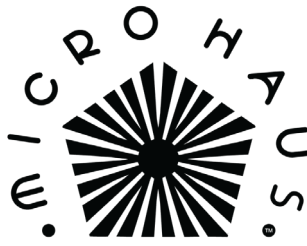

In this tutorial, we'll show you how to create the 3D character that represents you in ENGAGE.

### Set your avatar's height

In this tutorial, we'll show you how to set the height of your avatar. This is particularly important if you use a VR headset.

<https://youtu.be/azl85BPqyA>

#### 4. Familiarize yourself with the VR Device:

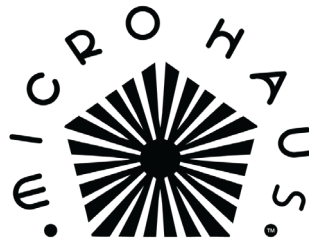

Give yourself enough time, prior to the session or event, to familiarize yourself with the VR headset, VR controllers, charging cable, and eyeglass spacer.

#### META QUEST 2 DEVICE

Meta Quest 2 tutorial: <https://www.youtube.com/watch?v=ZBSiZ5Pcjjg>

- d. VR headset power button, volume rocker, adjustment headband, adjustment IPD
- e. VR controllers' buttons, wrist straps.

## META QUEST PRO DEVICE

How to turn on the device: <https://www.youtube.com/watch?v=Pd8kxGUjGik>

### Three haptic devices

Index Trigger (LRA)

Thumb rest (LRA)

Body (VCM)

## VR CONTROLLER BUTTONS/ICONS

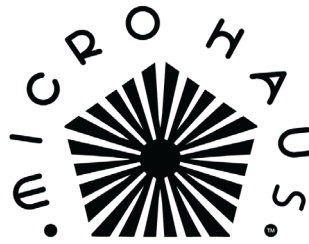

Below is a list of some of the most common uses for Touch Pro controller buttons in VR.

Keep in mind, individual apps will likely have their own controls and tutorials for using your Touch Pro controllers.

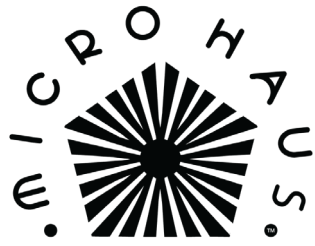

- **Thumbsticks** navigate your virtual environment.

- **Trigger** (on the front of the controller),  and  select objects in your environment.

-  and  return you to the previous screen or menu.

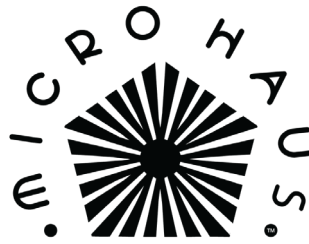

-  brings up the [universal menu](#). You can also press and hold  to recenter your headset view.
- **Grip** button (on the side of the controller) grabs objects or makes a fist when using your virtual hands.
-  brings up the menu inside apps and experiences.
- You can press any button to wake the controllers after you turn on your headset.

## MICRO HAUS' METAVERSE

## ATTENDING MICRO HAUS' METAVERSE

### 1. Power On Device

Power on VR device and follow its instructions for initial set-up.

### 2. Create a Guardian Boundary

Create a guardian boundary for the space where you will interact within the immersive virtual reality scenarios. Just follow the instructions on the screen.

- **Select stationary boundary** if you'll just be sitting in one spot while immersed in VR.
- **Select room scale boundary** to physically move around a defined space.

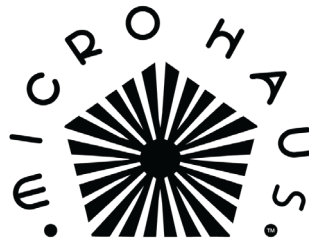

*Be sure to remove all objects around you, to avoid bumping into or tripping over them.*

### 3. Familiarize yourself with the Home Screen

Familiarize yourself with the **home screen** and the bar that runs across the bottom. If you do not see a bar, hit the home button on your controller.

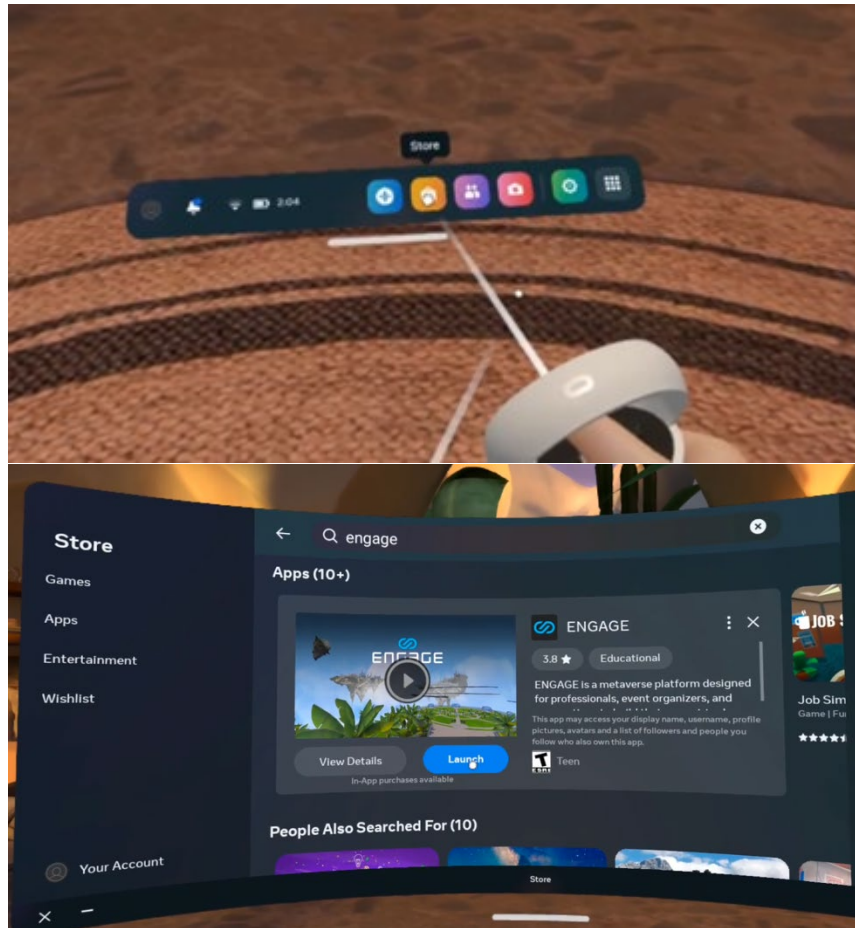

- Settings tab: For accessing **WIFI** if you need to connect to the network.
- App Library: Where you can open **ENGAGE** once it is installed.

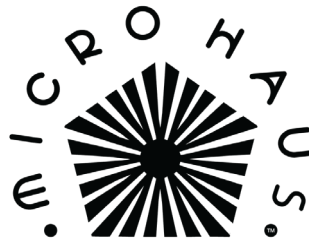

## 5. Download ENGAGE Software

- Select the “**Store**” button and search for “**ENGAGE**” in the top bar.
- Download the ENGAGE app.

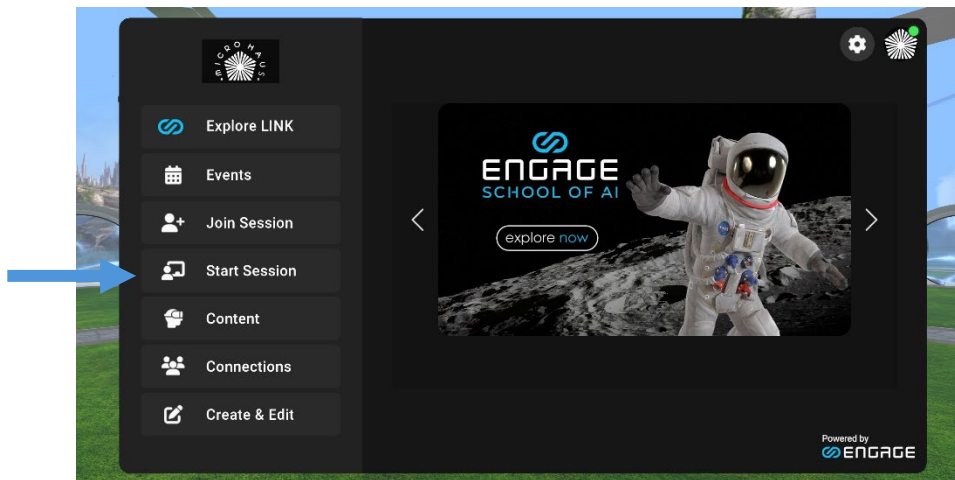

## 6. Sign in on the ENGAGE app

Once it has finished installing, open ENGAGE (Launch) and **SIGN IN** with the ENGAGE account you created earlier.

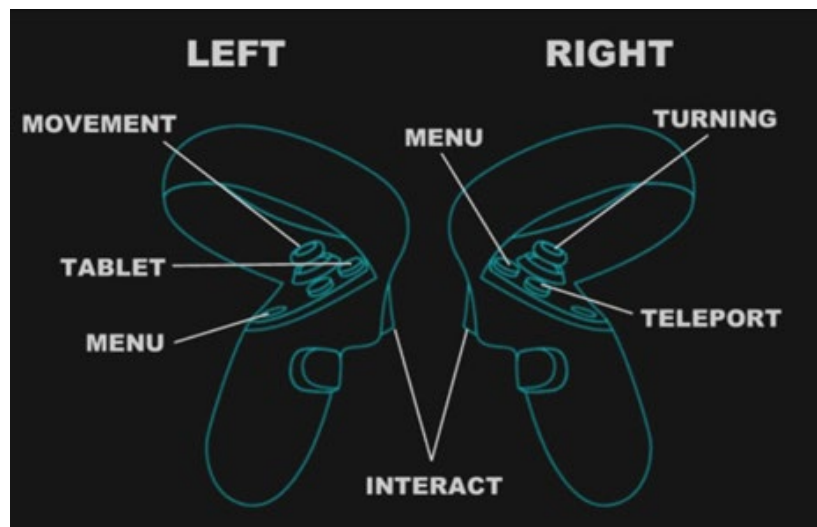

## 7. Test your device on the ENGAGE App

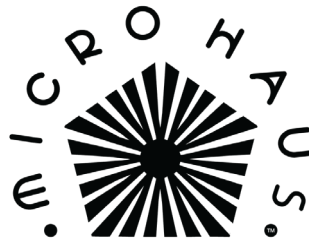

Once you're in ENGAGE's main menu, you can test out ENGAGE's controls to prepare for the event by selecting **Start Session** > **Lecture Hall** (or any other location as you please) > **Just Me**.

## 8. Familiarize with VR controllers

Refer to the following diagram to **familiarize yourself with ENGAGE's VR controls**. Looking at your virtual controllers while immersed in VR can also help, as you can perceive text that is overlaid on top of some of the buttons.

## 9. Use of Virtual Tablet

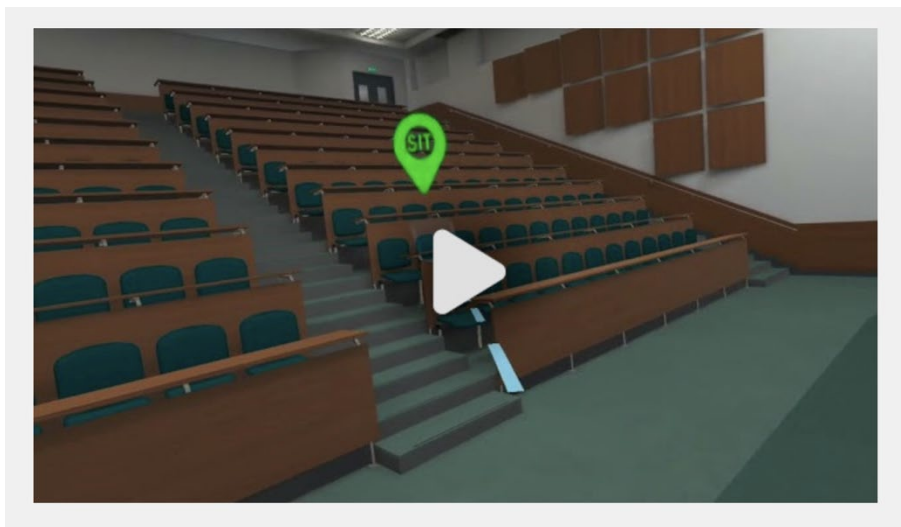

Learn how to use your **virtual tablet** or **in-session menu** by watching the following video:

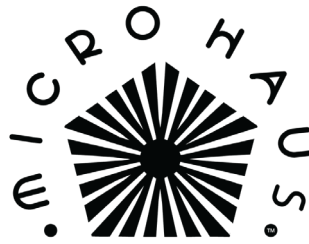

[https://www.youtube.com/watch?v=txhXe3bT\\_DA](https://www.youtube.com/watch?v=txhXe3bT_DA)

## 10. Moving around in the metaverse or Teleporting

Learn how to **teleport** (move around) within the VR spaces by watching the following video:

[https://www.youtube.com/watch?v=txhXe3bT\\_DA](https://www.youtube.com/watch?v=txhXe3bT_DA)

## 11. Access Additional Resources

You can learn more on how to use Engage at <https://docs.engagevr.io/engage/>

## 12. Join the ENGAGE Session

When it's time, open ENGAGE and join the **correct session** by:

- Selecting “**Join Session**” on left à Selecting the “**Join by session ID**” tab and Entering the following session ID (case sensitive): XXXXXX
